

## **EXTRAS + SURCHARGES**

### **INTERIOR**

- ❖ **Excessive Pet Hair or Trash, + \$30** (Charge Subject to Increase Based on Vehicles Condition)
- ❖ **Carpet / Cloth Seat Hydro Thread Ceramic Fabric Protectant (Last 12 Months): Just Carpet or Seats: +\$60, Carpet and Cloth Seats: +\$120**
  - Super-hydrophobic SiO<sub>2</sub> barrier that causes liquids to bead up and hover on the surface, without penetrating the underlying fibers.
  - Once treated, fabrics have an extremely low surface tension, causing the beads to roll right off the surface and making the surface super easy to clean, helping prevent stains from accidental spills.
  - Protects and prolongs without changing the look or feel of the surface it is treating.
  - Water-based and odorless for maximum versatility
- ❖ **All Leather/Vinyl Seats Treated with a Hydro Leather Ceramic Leather Protective Coating (Lasts 12 Months): +\$60**
  - Advanced ceramic, SiO<sub>2</sub> based formula for maximum protection on genuine leather, faux leather, and vinyl surfaces
  - Protects against damage from dirt, UV rays, contamination and exposure to everyday elements.
  - Resists water and spills and helps liquids pool on the surface to make spill clean up easier
  - Prevents leather's natural oils from escaping in the first place, ensuring the leather retains its factory, soft, tactile feel
  - Does not stiffen leather nor leave behind a greasy, oily, or slippery feel for a true OEM look

## **EXTERIOR**

- ❖ **Convertible Tops Treated with a Hydro Thread Ceramic Fabric Protectant (Lasts 12 Months): \$130**
  - Repels Water and Other Liquids
  - Helps Prevent Permanent Stains
  - Protects Without Changing the Look and Feel of Fabric
  - Helps Keep Your Convertible Top from Fading & Discoloration
  - Helps Repel Harmful UV Solar Rays
  - Gives Your Fabric Extreme Hydrophobic Water Beading
  
- ❖ **Exterior Trim Treated with a Hydro Shield Ceramic Shine Coating (Lasts for up to 12 Months): \$330**
  - SiO<sub>2</sub> formula that delivers a new-look brilliant dark and deep hydrophobic finish.
  - Preserves the long-lasting, supreme effect of color saturation.
  - Delivers a deep, dark new-look finish and provides a strong, long-lasting restoration effect to your trim.
  - Provides superior tight water beading that helps provide all-weather protection against rainwater, sprinklers, puddles, and more.
  - Ceramic UV shield further helps protect treated surfaces from the damaging effects of the sun, helping prevent fading for a deep dark ceramic finish that lasts.
  
- ❖ **All Outer Glass Treated with a Hydro View Ceramic Glass Coating (Lasts 4-6 Months): \$130**
  - Creates a smooth and slick surface that helps water and contamination rapidly slide off of the glass surface.
  - Creates a durable ceramic shield that causes water to roll up into tight beads and rapidly accelerate off the surface.
  - Helps shed water, dirt, grime, and mud to keep your glass cleaner longer, but makes cleaning your glass easier next time.
  - Ceramic SiO<sub>2</sub> protection to help reduce fogging, minimize water tension and deliver the ultimate clear vision.

❖ **Wheels and Rims Treated with a Hydro Spin Wheel & Rim Ceramic Coating (Lasts for up to 12 Months): +\$40**

- Protect and maintain your glossy painted, OEM, alloy, powder-coated, clear coated, chrome, and anodized wheel surfaces with the power of ceramic.
- Durable protection of ceramic with a high-gloss shine and slick finish for a durable bright ceramic look.
- Delivers a slick and super hydrophobic durable barrier that helps protect wheels and rims against the elements such as dirt, dust, brake dust and more with superior hydrophobic results that help reduce water spots and staining.

❖ **Tires Coated with a Hybrid Solutions Graphene Acrylic Tire Shine Spray Coating (Lasts 2 Months+): +\$20**

- Synthetic shine formula provides an adjustable shine and prevents browning
- Tiny graphene particles penetrate and bond with the tire surface for greater durability
- High-performance, durable formula lasts wash after wash for months of gloss and protection
- Graphene and Acrylic polymers deliver an incredible high gloss and a deep, jet-black color on your tires that's durable, water-repellant and sealed against harmful chemicals and UV rays.

❖ **Heavy Metal Polishing: Exhaust Tips +\$20, Diamond Plates/Stainless Steel: +\$30, Front & Rear Chrome Bumpers +\$40**

- Restore a brilliant shine to severely oxidized, stained, and tarnished metal surfaces, then seal it with protective polymers.
- Micro-abrasives restores gloss and clarity to bare polished metal
- Restores a brilliant shine to stainless steel, aluminum, chrome, then seals the surface with protective polymers to help prevent future stains and oxidation.
- Repels water spots and stains to ensure your metalwork is protected

- ❖ **Undercarriage Protectant (Only for Vehicles With Accessible & Visible Wheel Wells): +\$20**
  - Premium undercarriage dressing that protects and enhances hard-to-reach areas like the wheel wells, subframes, springs, and fender liners.
  - Restores faded undercarriage surfaces back to like-new condition, with UV solar protection.
  - Seals and protects your vehicle's undercarriage against dirt, dust, grime, and filth. Also protects against rust on your undercarriage by repelling road salt.
  - Plastic, rubber, vinyl, painted metal, powder coat, rubberized undercoating, springs, control arms, shock absorbers, drive axles, and differentials.
  
- ❖ **Truck Bedliners Coated With Shine Protectant: +\$30**
  - Restore faded bedliners back to like-new condition, with UV solar protection.
  - Helps to protect your vehicle's bedliner against dirt, dust, grime, and filth
  - Restores a deep black look
  
- ❖ **Water Spot Removal Paint Correction (Not Full Body, Generalized Areas Only, Ex: Hood): +\$40**
  - Water spots are the stains of mineral deposits left over after a drop of water evaporates. Utilizing a specialty gel that neutralizes alkaline stains with a mild acid, removing the stuck-on water stain or hard water spots.
  - Dual-Action Machine Polisher Application
  
- ❖ **Headlight Restoration: + \$50**
  - Fully Cured Within 24 Hours
  - Do not Expose the Coating to Water or Moisture Until Fully Cured
  
- ❖ **Engine Detailing (Degreased, Brushed, Washed, Dried & Dressed), + \$60**
  
- ❖ **Iron Decon and Clay Bar (Removes any rail dust, brake dust, iron particles and any contamination, then washed off. Highly Recommended for White Coloured Vehicles). Small/Midsized: + \$50, Large/Trucks/Vans: +\$60**
